# Support

私たちは持続可能な開発目標 (SDGs) を支援しています We support the Sustainable Development Goals (SDGs).

ディスポ (使い切り) 商品の提供を行う企業の 責任として、このSDGsの趣旨に賛同し、脱プラ スチック製品の提案をはじめCO2の削減やゴ ミの省力化など「地球の未来」を考え、環境に 配慮した取り組みを積極的に行っています。

As a company that provides disposable (single-use) products, we recognize our responsibility to support the goals of the SDGs. We are actively committed to environmentally conscious initiatives, including proposing plastic-free products, reducing CO<sub>2</sub> emissions, and minimizing waste, all with the "Future of the Earth" in mind.

# SUSTAINABLE GOALS

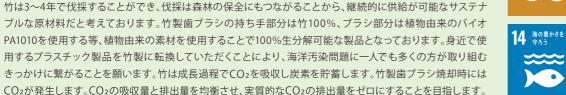

# サステナブルな選択で海洋汚染と カーボンニュートラルに貢献

We make sustainable choices to help reducemarine pollution and achieve carbon neutrality.

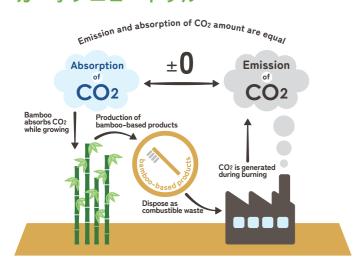

Bamboo can be harvested in 3 to 4 years, and harvesting bamboo helps preserve forests, which is why we believe bamboo is a sustainable raw material that can be continuously supplied. The handle of the bamboo toothbrush is made from 100% bamboo, and the bristles are made from plant-based bio-PA1010, making it a fully biodegradable product.

By encouraging people to replace the plastic products they use in their daily lives with bamboo alternatives, we hope to raise awareness of the issue of marine pollution. Bamboo absorbs CO2 and stores carbon as it grows. When a bamboo toothbrush is incinerated, CO<sub>2</sub> is released. We aim to balance the amount of CO<sub>2</sub> absorbed and emitted, with the ultimate goal of achieving net-zero CO2 emissions.

# **Carbon Neutral** カーボンニュートラル

竹は成長過程でCO2を吸収し炭素を貯蓄します。竹製歯ブラシ焼却時に発 生するCO2と比較した場合、吸収量と排出量が実質的にゼロになり、カーボ ンニュートラル実現に取り組むことに繋がります。

Bamboo absorbs CO2 and stores carbon as it grows. When a bamboo toothbrush is incinerated, CO<sub>2</sub> is generated. We aim to balance the amount of CO2 absorbed and emitted, and to effectively reduce CO2 emissions to zero.

# プラスチックスマート

客室のアメニティにサステナブル製品を採用し、プラ スチックの使用量削減に努め、環境負荷低減に貢献 します。

We strive to reduce the amount of plastic used in our guest room amenities, thereby contributing to lessening the environmental impact.

# Bamboo **Amenities**

# 環境にやさしい選択「竹製アメニティ」で、 持続可能な未来を目指す。

竹製アメニティを使う理由は、環境保護や持続可能な生活をサポートするため です。竹は急速に成長する植物で、特別な化学肥料や農薬を必要とせず、収穫 後もすぐに再生します。そのため、森林破壊のリスクが少なく、持続可能な資 源として非常に適しています。

リサイクル可能な素材を選び、快適な使い心地を提供する満足度の高い製品 を揃えました。

# We strive for a sustainable future by choosing eco-friendly bamboo amenities.

The reason we use bamboo amenities is to support environmental protection and promote sustainable living.

Bamboo is a fast-growing plant that requires no special chemical fertilizers or pesticides and regenerates quickly after harvest. This means it poses less risk of deforestation and is highly suitable as a sustainable resource

We have chosen recyclable materials and developed a range of products that are both comfortable to use and provide a high level of satisfaction.

# 竹コーム Bamboo Comb

静電気知らず、自然の心地よさ。 天然竹100%のコンパクトコーム。

No static electricity, just natural comfort. A compact comb made from 100% natural bamboo.

天然竹100%のコームは、プラスチックに 比べて静電気が起きにくく、キューティク ルを守りながらブラッシングできるので、 髪を健康的に保ちます。持ち運びに便利 なコンパクトなサイズ(約13.5cm)です。

This 100% natural bamboo comb is less prone to static electricity compared to plastic combs and allows you to brush your hair while protecting the cuticles, helping to keep your hair healthy. Its compact size (approximately 13.5 cm) makes it easy to carry around

# 竹カミソリ Bamboo Razor

自然の強さ、しっかりとした剃り心地。 竹製ハンドルで環境にも肌にも優しい。

Natural strength and a close, comfortable shave. The bamboo handle is gentle on both the environment and your skin.

ハンドル部分は天然の竹を使用し、プラ スチックの使用を最小限にするよう配慮 しました。竹製のハンドルは強度と耐久 性に優れています。三枚刃でしっかりと した剃り心地を提供します。

The handle is made from natural bamboo, with careful attention to minimizing the use of plastic. The bamboo handle is strong and highly durable. The triple blades offer a close. smooth shave

are made from 100% plant-derived bio-PA1010.

reduction in CO2 emissions.

竹製歯ブラシ

Harvesting bamboo also contributes to forest conservation. It is a sustainable raw material that can be used continuously in an infinite cycle.

It is safe because no chemicals are used during manufacturing.

# ブラシの材質 Brush Material

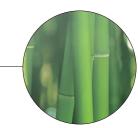

ひまし油由来の原料を用いて合成された樹脂で、100%植物由来の バイオマスプラスチック(バイオPA1010)を使用しています。

毛の硬さはふつうで、四角断面毛です。製造時に歯ブラシの毛はV字 型に折り曲げて小さな金属片で押さえて穴の中に固定しますが、弊社 では固定する金属片に抗菌効果を持つ純度100%の銅を使用してい

This brush is made from resin synthesized using raw materials derived from castor oil, and it uses 100% plant-based biomass plastic (Bio PA1010)

The bristles are of normal hardness and have a square cross-section. During manufacturing, the bristles of the toothbrush are bent into a V shape and held down by a small metal piece to fix

We use 100% pure copper, which has antibacterial properties, for the metal piece used to secure the bristles

## 竹の効果 Bamboo Properties

抗菌・防カビ・防腐・抗ウイルス・抗酸 化などの効果があります。

Bamboo has antibacterial, antifungal, antiseptic, antiviral, and antioxidant properties.

### 竹の種類 Type of Bamboo

孟宗竹を使用しています。化学薬 品を一切使用することなく加工して おります。

※天然素材のため、製品によって色に バラつきがございます。また、時間の経 過とともに色の変化があります。

Made from Moso bamboo, processed without any chemicals.

\*Since it is a natural material, there may be color variations between products. Additionally, the color may change over time.

# **EVERGREEN**プログラム

## **EVERGREEN PROGRAM**

弊社の環境配慮型商品"竹歯ブラシ"を1本販売する毎に3円を、地球環境をよりよくする活動に役立てていきま す。具体的には、開発途上国や後開発途上国の貧困状態にある子供たちの教育支援や公衆衛生に関する活動 (竹歯ブラシを寄贈する活動等)に役立てていきます。また、国内外の植林活動にも使われます。販売実績には、 ひろせプロダクトの国内外のグループ会社、関連会社の販売実績もカウントされます。

For every sale of one of our eco-friendly products, the "Bamboo Toothbrush", 3 yen will be donated to activities aimed at improving the global environment. Specifically, these funds will support educational initiatives for children in poverty in developing and least-developed countries, as well as public health projects, such as donating bamboo toothbrushes. Additionally, the funds will be used for afforestation efforts both domestically and internationally. Sales figures also include the results from Hirose Products' domestic and international group companies and affiliates.
